# Start Dealer4

Start Dealer4 using the Dealer4 icon on the desktop or in the Quick Start menu

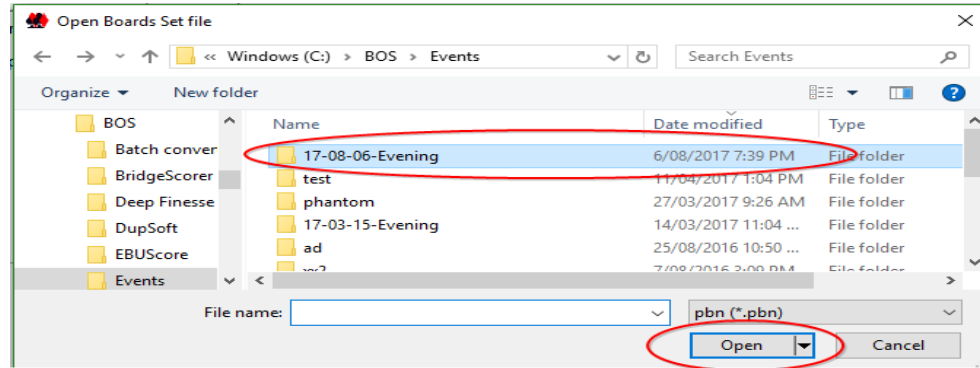

Click File → Load

This should open in the folder C:\BOS\Events with your newly created events folder at the top of the list.

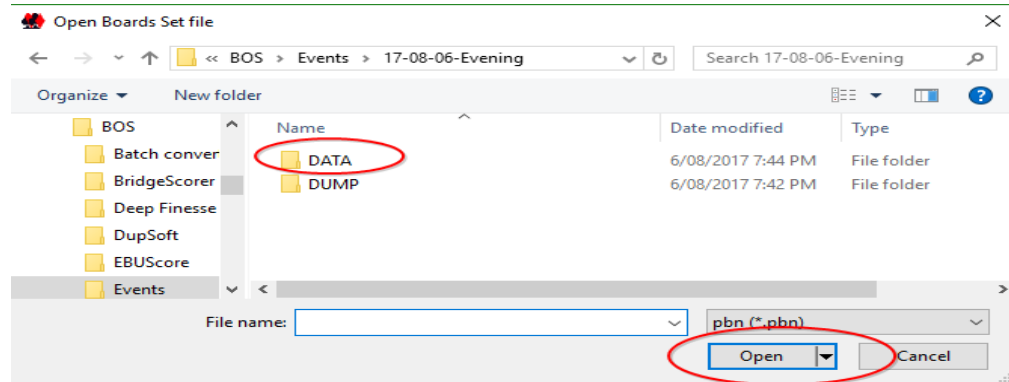

# Finding the pbn file

- Click on the required folder (session day) then click OPEN  
[Or just double-click the folder]

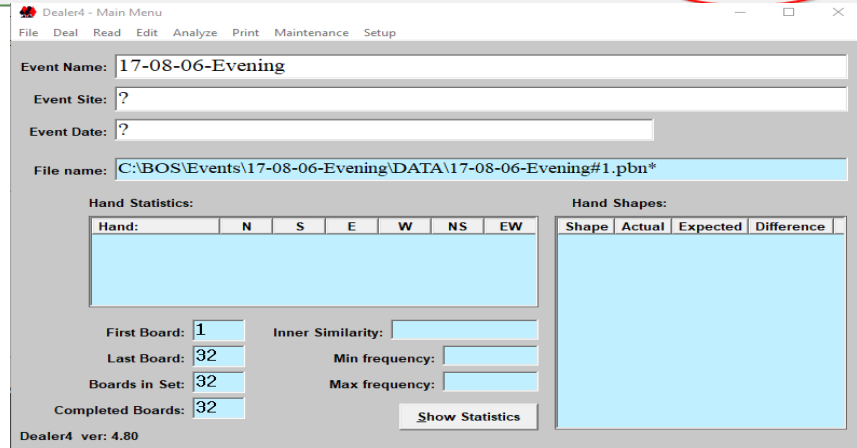

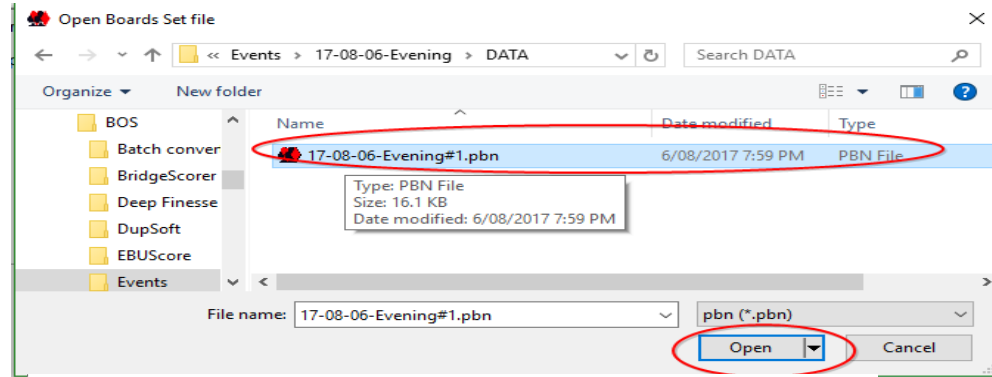

- Now click on DATA then OPEN

# Finding the pbn file

- Then on the filename and OPEN
- Now deal as usual by clicking DEAL – when finished close Dealer4

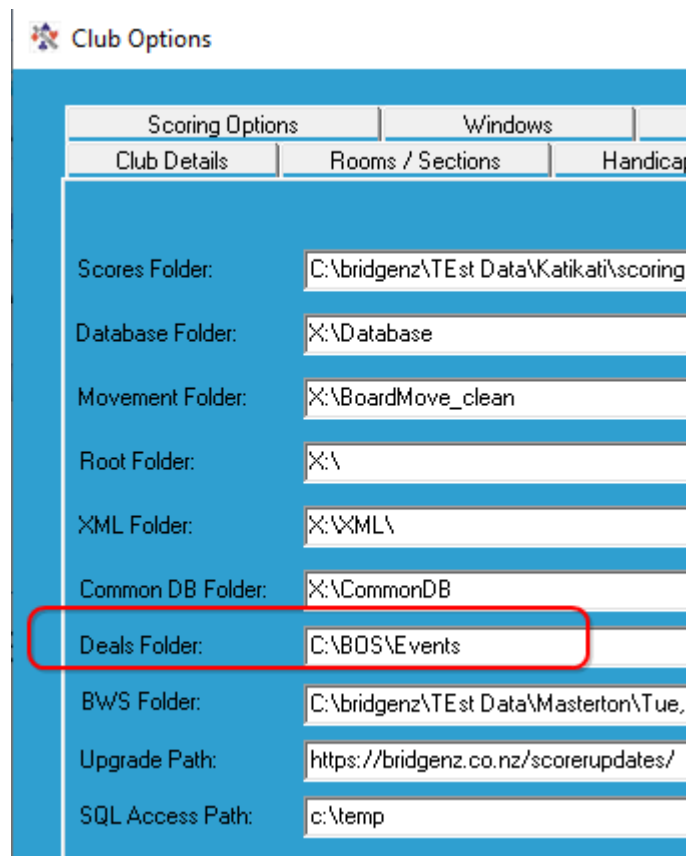

# Final Notes

- NOTE: If you want to print hand records from Dealer4, then you may need to click Analyse in the top menu bar to get the makeable contracts.
- ***Repeat the process from the top for other nights – creating the BOS event and generating the deals there then opening Dealer4 and dealing the boards.***

# Scorer Setup

- In the Scorer Options → Files tab
- Set the Deals Folder to the appropriate place to retrieve the deals for the session.

The screenshot shows the 'Club Options' application window. The 'Files' tab is selected under the 'Scoring Options' section. The 'Deals Folder' field is highlighted with a red circle. The following table represents the data visible in the interface:
